

# Dry Pigment Ready Mix Color Card

Solomon Colors

## SGS Integral Colors

These color chips represent shades of Integral Colors based on 94 lbs. gray Type I-II Portland cement with 4" slump. Use this chart as a guideline only. The colors may not exactly represent the final color. Shade variations of cement and aggregate plus variations in the volume of water, the addition of admixtures and other additives may have an effect on the design mix and final color. We recommend that a test slab be poured and approved prior to the start of the job.

1 - 25lb. bag per 4 yards	1 - 25lb. bag per 2 yards	1 - 25lb. bag per 1 yard
